

Welcome to the inaugural The LEGs Connection! In an effort to achieve collaboration between LEGS, the LEG's Connection will feature extracts of various LEG updates, NOAMA updates, upcoming events, and include LEG Leads contact information.

NOAMA

NOAMA has transitioned from an organization supporting clinical teaching enhancements to an organization responsible for the expansion of an academic culture among the physicians in Northern Ontario; a major component is the defining scholarly activity as it relates to the PCTA, NOSM and the NTHC.

We've recently updated our website to include new LEG website complete with a LEG Discussion Board and Fileshare which stemmed from our recent LEG Lead meeting in Toronto.

The 2015-2016 Annual Report is completed and available on the NOAMA website.

Finally, the NOAMA staffing transition is now complete. Many thanks and happy retirement to both Dorothy Wright and Lana Norton!

NOAMA could not have become the successful organization without all of their contributions!

What's Happening

- LEG Leads Breakfast Meeting: April 9, 2016 @ 6:45am at NC
- Scholarly Activity draft definition completed for presentation at NC
- IFPOC approved all 11 NOAMA supported AFP successful grants
- NOAMA approved 22 CIOF successful grants
- Newly updated Website: www.noama.ca

Huntsville Physician Local Education Group

The Huntsville LEG was established in May of 2013 and currently has 45 members including Family Medicine as well as Specialty Physicians. By using Start up and Innovative funds the group hired a full time Research and Academic Coordinator who has been instrumental in helping to increase the clinical teaching, academic teaching, Physician Education and Research in our community. The group has now also successfully completed our second annual LEGS Teaching/Research Conference, which has brought in dynamic speakers for a 2 day Educational event. Our most recent initiative is the establishing of the Huntsville LEG web site which will be used as a communication tool, repository for Grand Round and Conference presentations, and a CME calendar and discussion forum

<i>LEG Name</i>	<i>LEG Lead</i>	<i>E-mail Address</i>
<i>City of Lakes Family Health Team</i>	Dr. Katherine Richardson	krichardson@hsnsudbury.ca
