

Research Support Services

Ian Lane
Senior Research Facilitator
Health Sciences North Research Institute

Shalyn Littlefield
Clinical Research Development Coordinator
Thunder Bay Regional Health Research Institute

Conflict of Interest

- This program has received **no** financial support.
- This program has received **no** in-kind support other than the time for Ian Lane and Shalyn Littlefield to prepare this presentation.
- **Potential for conflict(s) of interest:**
 - The speakers have received **no** payment/funding from any organization supporting this program or organization whose product(s) are being discussed in this program.
 - There is **no** supporting organization who has developed/licenses/distributes/benefits from the sale of a product that will be discussed in this program.

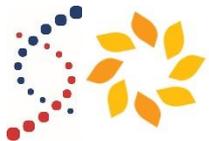

Learning Objectives

1. Identify methods to engage your LEG members in research
2. Identify research support systems available to LEGs

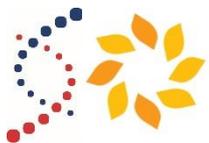

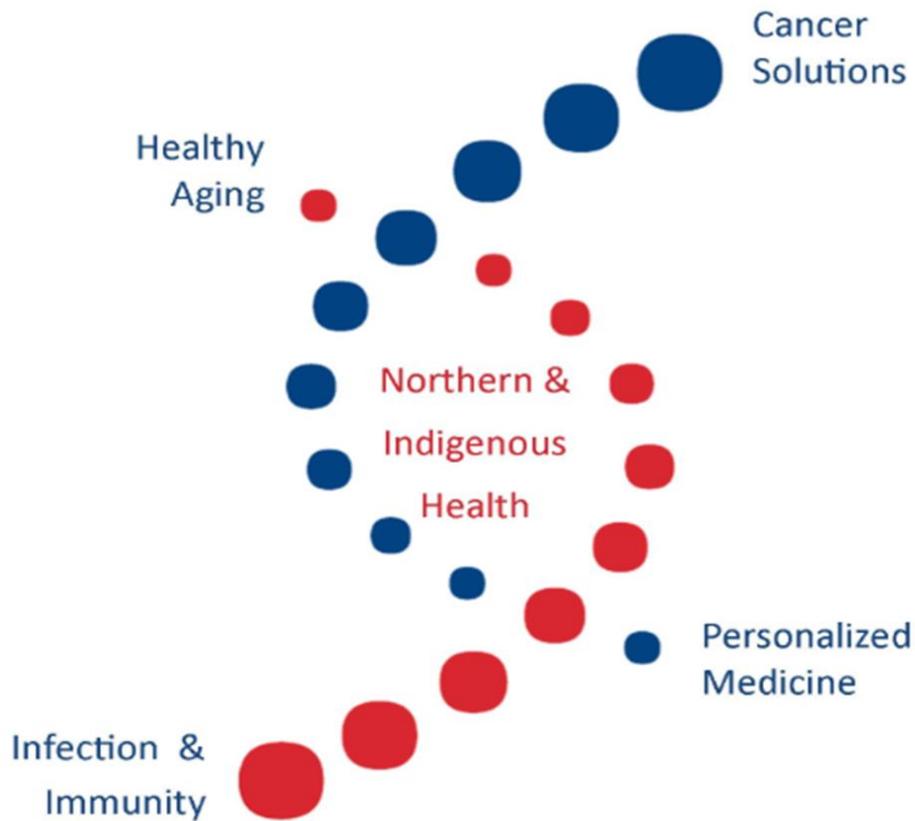

HSNRI & TBRHRI

- Hospital-affiliated research institutes focused on healthcare innovation, discovery, translation and dissemination to communities and patients in Northern Ontario, Canada, and internationally

HSNRI Priorities

2020 Strategic Plan

Healthier

Enhance research to improve the health outcomes of the people of NWO and beyond.

Wealthier

Enhance philanthropic and other support and generate revenue through science and partnerships.

Smarter

Enhance the academic environment.

Partners

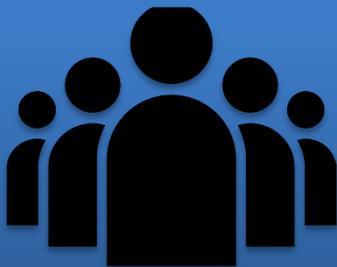

Academic Partners:

- Laurentian University, Lakehead University, NOSM, Northern College, Cambrian College, College Boreal, Confederation College

Major Funders:

- Northern Ontario Academic Medicine Association (NOAMA), Northern Ontario Heritage Foundation Corporation, FedNor, CIHR, Physician Services Incorporated Foundation (PSI)

Community/Public Partners:

- Greater Sudbury Economic Development Corporation, Thunder Bay Community Economic Development Commission, FedNor, NOHFC

GRANT FACILITATION

PRE-AWARD

POST-AWARD

Research Ethics

TCPS 2: Article 2.1

The following requires ethics review and approval by an REB before the research commences:

- research involving living human participants;
- research involving human biological materials, as well as human embryos, fetuses, fetal tissue, reproductive materials and stem cells. This applies to materials derived from living and deceased individuals.
